PROFESSIONAL EXPERIENCE

Junior React Developer — Cetpa Infotech Pvt. Ltd., Noida, UP

Jan 2025 – Present

Enterprise IT solutions company — Key Client: DFCCIL (Dedicated Freight Corridor Corporation of India), Ministry of Railways, Government of India

- Independently designed, developed, and deployed **Training Management System** and **Task Management System** for DFCCIL — requirement analysis, UI/UX, REST API integration, and post-deployment support.
- Contributed to three additional DFCCIL platforms (Event, Asset & Visitor Management Systems) — systematic bug fixing, UI/UX enhancements, and REST API integration.
- Built role-based UIs with multi-level approval workflows, real-time push notifications, dynamic participant management, and complete audit trail tracking.
- Developed reusable component libraries with React Hooks and Redux Toolkit; implemented Axios interceptors for JWT token management and centralised error handling.
- Delivered pixel-perfect responsive layouts with Tailwind CSS and Shadcn/UI; integrated **Bhasini multilingual API** for government accessibility requirements.
- Applied React.lazy/Suspense code-splitting for performance optimisation; implemented robust multi-step form validation frameworks.
